### CLASS DESCRIPTION:

Watercolor Studio Classes (series, not offered individually)

Designed for everyone who wants to paint with watercolors: Brand new students, as well as those with some experience or those advanced. Each class includes a demonstration by the instructor, round robin sharing to see what everyone is working on and to offer suggestions or assistance and free time to work on a piece of your own subject matter of your choosing. The instructor will allow ample time for individual attention.

**NOTE:** If you are new to watercolor or have never learned much about watercolor pigments, 140 lbs. cold-pressed paper, watercolor brushes, I invite you to take my free online course, Watercolor Basics Primer: From the Beginning Class, BEFORE the first day of class. It covers everything you need to know to get started and important, unique information about the characteristics of watercolor, selecting the right paper and brushes, as well as handling properties of watercolor pigments. Over time, I have noticed that those who have taken this class start painting and have desired results much more quickly than those who have not attended this primer.
